Indiana Inspector General David O. Thomas, after an inspection and review by Special Agent Mark Mitchell, reports as follows:

The purpose of this report is to document a physical inspection of a project funded in whole or in part by ARRA funds.

The OIG's enabling statute provides that the OIG is responsible for addressing fraud, waste, abuse and wrongdoing in agencies. IC 4-2-7-2(b). The OIG is also to review and recommend policies and carry out other activities

designed to deter, detect, and eradicate fraud, waste, abuse, mismanagement, and misconduct in state government. IC 4-2-7-3(2).

Based upon these authorities, random ARRA projects were selected from the Invest Indiana website map (<http://www.in.gov/gov/countyarra.htm>). This website specifies ARRA projects by county.

A physical inspection was then made of the selected project. The inspection was limited to a visual review of the work that had occurred.

In this case, Contract SR-29631-A was inspected. This was an intersection improvement at SR11 and CR 450 S in Bartholomew County, IN. The contract on this project was let on March 25, 2009. The location of this project was at SR11 and CR 450 S in Bartholomew County, IN. This project was completed.

In addition to a visual inspection, photographs were taken of the area and are included in Exhibit A, attached hereto.

As the inspection revealed that the location and type of work to be performed was completed, this case will be closed.
